

PRODUCT RANGE 2010-2011

Real Time Q-PCR kit	Tests	Ref.	Description
Q - CMV Real Time Complete kit	96	RTK015	Detection of CMV DNA (MIEA) 4 Plasmidic controls at known titre for quantitative assays and CPE-DNA included in the kit
EBV Q-PCR Alert kit	96	RTS020	Detection of EBV DNA (EBNA-1)
EBV Q-PCR Standard	16	STD020	4 Plasmidic controls at known titre for quantitative assays
EBV - Positive Control	25	CTR02	Plasmidic positive controls for qualitative assays
HSV1 Q-PCR Alert Kit	96	RTS031	Detection of HSV1 DNA (Glycoprotein D)
HSV1 Q-PCR Standard	16	STD031	4 Plasmidic controls at known titre for quantitative assays
HSV1 / HSV2 - Positive Control	25	CTR03	Plasmidic positive controls for qualitative assays
HSV2 Q-PCR Alert Kit	96	RTS032	Detection of HSV2 DNA (Glycoprotein G)
HSV2 Q-PCR Standard	16	STD032	4 Plasmidic controls at known titre for quantitative assays
HSV1 / HSV2 - Positive Control	25	CTR03	Plasmidic positive controls for qualitative assays
VZV Q-PCR Alert Kit	96	RTS035	Detection of VZV DNA (Major DNA Binding Pr.)
VZV Q-PCR Standard	16	STD035	4 Plasmidic controls at known titre for quantitative assays
VZV - Positive Control	25	CTR035	Plasmidic positive controls for qualitative assays
HHV6 Q-PCR Alert Kit	96	RTS036	Detection of HHV6 DNA (ORF 13R)
HHV6 Q-PCR Standard	16	STD036	4 Plasmidic controls at known titre for quantitative assays
HHV6 - Positive Control	25	CTR036	Plasmidic positive controls for qualitative assays
HHV8 Q-PCR Alert Kit	96	RTS038	Detection of HHV8 DNA (Capsid Protein)
HHV8 Q-PCR Standard	16	STD038	4 Plasmidic controls at known titre for quantitative assays
HHV8 - Positive Control	25	CTR038	Plasmidic positive controls for qualitative assays
BKV Q-PCR Alert Kit	96	RTS175	Detection of BKV DNA (Large T Antigen)
BKV Q-PCR Standard	16	STD175	4 Plasmidic controls at known titre for quantitative assays
BKV - Positive Control	25	CTR175	Plasmidic positive controls for qualitative assays
TOXOPLASMA Q-PCR Alert Kit	96	RTST01MR	Detection of <i>Toxoplasma gondii</i> DNA (RE region)*
TOXOPLASMA g.RE - Positive Control	12	CTR01MR	Plasmidic positive controls for qualitative assays*
ENTEROVIRUS Q-PCR Alert Kit	100	RTS076MR	Detection of Enterovirus cDNA (5' UTR Region)
ENTEROVIRUS Q-PCR Standard	16	STD076MR	4 Plasmidic controls at known titre for quantitative assays
ENTEROVIRUS - Positive Control	12	CTR076MR	Plasmidic positive controls for qualitative assays
INFLUENZA A / B Q-PCR Alert Kit	48 x 2	RTS074	Detection of Influenza A and B cDNA (Matrix Protein)
INFLUENZA A / B - Positive Control	12 x 2	CTR074	Plasmidic positive controls for qualitative assays
INFLUENZA A Q-PCR Alert Kit	96	RTS074A	Detection of Influenza A cDNA (Matrix Protein)
INFLUENZA A - Positive Control	25	CTR074A	Plasmidic positive controls for qualitative assays
RSV Q-PCR Alert Kit	48	RTS079	Detection of RSV A and B cDNA (Nucleoprotein)
RSV - Positive Control	12 x 2	CTR079	Plasmidic positive controls for qualitative assays
CHLAMYDIA tr. Q-PCR Alert Kit	96	RTS098	Detection of <i>Chlamydia tr.</i> DNA (DNA-B like - endogenous plasmid)
CHLAMYDIA tr. Q-PCR Standard	16	STD098	4 Plasmidic controls at known titre for quantitative assays
CHLAMYDIA tr. - Positive Control	25	CTR098	Plasmidic positive controls for qualitative assays

*CE-IVD in progress

Real Time Q-PCR kit	Tests	Ref.	Description
JCV Q-PCR Alert Kit	100	RTS176MR	Detection of JCV DNA (Large T Antigen)
JCV Q-PCR Standard	16	STD176MR	4 Plasmidic controls at known titre for quantitative assays
JCV - Positive Control	12	CTR176MR	Plasmidic positive controls for qualitative assays
ASPERGILLUS spp. Q-PCR Alert Kit	96	RTS110	Detection of <i>Aspergillus spp.</i> DNA (rRNA 18s)
ASPERGILLUS spp. Q-PCR Standard	16	STD110	4 Plasmidic controls at known titre for quantitative assays
MYCOPLASMA pn. Q-PCR Alert Kit	96	RTS094	Detection of <i>Mycoplasma pn.</i> DNA (Cytoadhesin P1)
MYCOPLASMA pn. - Positive Control	25	CTR094	Plasmidic positive controls for qualitative assays
MTB Q-PCR Alert kit	96	RTS120	Detection of <i>Mycobacterium tuberculosis</i> DNA (IS6110) Positive controls included - Specific Extraction kit available (see Accessory kits, Nucleic acid extraction)
LEGIONELLA pn. Q-PCR Alert kit	96	RTS096	Detection of <i>Legionella pn.</i> DNA (mip)
LEGIONELLA pn. - Positive Control	25	CTR096	Plasmidic positive controls for qualitative assays
CHLAMYDOPHILA pn. Q-PCR Alert Kit	96	RTS097	Detection of <i>Chlamydomphila pn.</i> DNA (ompA)
CHLAMYDOPHILA pn. - Positive Control	25	CTR097	Plasmidic positive controls for qualitative assays
PARVOVIRUS B19 ELiTe MGB Kit NEW	100	RTS070PLD	Detection of Parvovirus B19 DNA (VP1 region)
PARVOVIRUS B19 ELiTe MGB Standard	16	STD070PLD	4 Plasmidic controls at known titre for quantitative assays
PARVOVIRUS B19 ELiTe MGB - Positive Control	12	CTR070PLD	Plasmidic positive controls for qualitative assays
ADV Q-PCR Alert kit NEW	96	RTS121	Detection of Adenovirus DNA (Hexon protein) Positive controls included

Real Time Q-PCR kit	Tests	Ref.	Description
FACTOR II Q - PCR Alert Kit	96	RTSD01-II	SNP G20210A Allelic determination of Factor II
FACTOR II - Positive Control	25	CTRD01-II	SNP G20210A Plasmidic Heterozygous control
FACTOR V Q - PCR Alert Kit	96	RTSD01-V	SNP G1691A (Factor V Leiden) Allelic determination of Factor V
FACTOR V - Positive Control	25	CTRD01-V	SNP G1691A Plasmidic Heterozygous control
MTHFR C677T Q - PCR Alert Kit	96	RTSD08	SNP C677T Allelic determination of MTHFR
MTHFR C677T - Positive Control	25	CTRD08	SNP C677T Plasmidic Heterozygous control
FACTOR V HR2 Q - PCR Aler Kit	96	RTSD13	SNP A4070G (Factor V-HR2) Allelic determination of Factor V
FACTOR V HR2 - Positive Control	25	CTRD13	SNP A4070G Plasmidic Heterozygous control
MTHFR A1298C Q - PCR Alert Kit	96	RTSD14	SNP A1298C MTHFR Allelic determination of MTHFR
MTHFR A1298C - Positive Control	25	CTRD14	SNP A1298C Plasmidic Heterozygous control

Real Time Q-PCR kit	Tests	Ref.	Description
PHILADELPHIA p210 Q - PCR Alert Kit	48 x 2	RTSG07-210	Detection of BCR-ABL cDNA p210
PHILADELPHIA p210 Q - PCR Standard	4 x 2 (doubled)	STDG07-210	4 x 2 Plasmidic controls at known titre for quantitative assays
PHILADELPHIA p190 Q - PCR Alert Kit	48 x 2	RTSG07-190	Detection of BCR-ABL cDNA p190
PHILADELPHIA p190 Q - PCR Standard	4 x 2 (doubled)	STDG07-190	4 x 2 Plasmidic controls at known titre for quantitative assays
PHILADELPHIA p210 RNA reference (BCR-ABL P210 b3a2)	6	SPG07-210	RNA reference to evaluate the intra and inter-lab data reproductibility of Real Time PCR t(9;22) assay

**Products - Nested-PCR
(Electrophoresis Detection)***
Tests Ref. Description

	Tests	Ref.	Description
CMV Early Complete Kit	50	NEK015	Detection of CMV DNA (MIEA) Positive and internal controls included in the kit
EBV oligomix Alert Kit	50	BAN02	Detection of EBV DNA (Bam HI W)
EBV - Positive Control	25	CTR02	Plasmidic positive controls for qualitative assays
HSV1 / HSV2 oligomix Alert Kit	50	BAN031	Detection of HSV1 an HSV2 DNA (Glycoprotein D-G)
HSV1 / HSV2 - Positive Control	25	CTR03	Plasmidic positive controls for qualitative assays
VZV oligomix Alert Kit	50	BAN035	Detection of VZV DNA (Major DNA Binding Protein)
VZV - Positive Control	25	CTR035	Plasmidic positive controls for qualitative assays
HHV6 oligomix Alert Kit	50	BAN036	Detection of HHV6 DNA (ORF 13R)
HHV6 - Positive Control	25	CTR036	Plasmidic positive controls for qualitative assays
HHV7 oligomix Alert Kit	50	BAN037	Detection of HHV7 DNA (Capsid Protein)
HHV7 - Positive Control	25	CTR037	Plasmidic positive controls for qualitative assays
INFLUENZA / RSV oligomix Alert Kit	50	BAN064	Detection of Influenza A/B and RSV cDNA (Matrix Protein and Nucleoprotein)
INFLUENZA / RSV - Positive Control	25	CTR064	Plasmidic positive controls for qualitative assays
PARVOVIRUS B19 oligomix Alert Kit	50	BAN070	Detection of Parvovirus B19 DNA (Nucleocapsid)
PARVOVIRUS B19 Positive Control	25	CTR070	Plasmidic positive controls for qualitative assays
TOSCANA VIRUS oligomix Alert Kit	50	BAN071	Detection of Toscanavirus cDNA (Protein N)
TOSCANA VIRUS - Positive Control	25	CTR071	Plasmidic positive controls for qualitative assays
NOROVIRUS oligomix Alert Kit	50	BAN073	Detection of Norovirus cDNA (ORF 1)
NOROVIRUS - Positive Control	25	CTR073	Plasmidic positive controls for qualitative assays
JCV / BKV oligomix Alert Kit	50	BAN075	Detection of JCV/BKV DNA (Large T Antigen)
JCV / BKV - Positive Control	25	CTR075	Plasmidic positive controls for qualitative assays
ENTEROVIRUS oligomix Alert Kit	50	BAN076	Detection of Enterovirus cDNA (5'-UTR)
ENTEROVIRUS - Positive Control	25	CTR076	Plasmidic positive controls for qualitative assays
RUBELLA oligomix Alert Kit	50	BAN077	Detection of Rubella cDNA (Capsid E1) - <i>Research Use Only</i>
RUBELLA - Positive Control	25	CTR077	Plasmidic positive controls for qualitative assays - <i>Research Use Only</i>
ADENOVIRUS oligomix Alert Kit	50	BAN078	Detection of Adenovirus DNA (Major Capsid Protein)
ADENOVIRUS - Positive Control	25	CTR078	Plasmidic positive controls for qualitative assays
PNEUMOCYSTIS JIROVECI oligomix Alert Kit	50	BAN090	Detection of <i>Pneumocystis jiroveci</i> DNA (Mitochondrial DNA)
PNEUMOCYSTIS JIROVECI - Positive Control	25	CTR090	Plasmidic positive controls for qualitative assays
BORRELIA spp. oligomix Alert Kit	50	BAN091	Detection of <i>Borrelia</i> spp. DNA (Flagellin)
BORRELIA spp. - Positive Control	25	CTR091	Plasmidic positive controls for qualitative assays

*All the Alert PCR products are available in a monotest format Please order BANXXX-02 to select the 0,2 ml PCR tubes format or BANXXX-05 to select the 0,5 ml PCR tubes format

MICROBIOLOGY

Products - Nested-PCR
(Electrophoresis Detection)*

Products	Tests	Ref.	Description
PNEUMOTRIS oligomix Alert Kit	50	BAN099	Detection of <i>Mycoplasma pn.</i> , <i>Legionella pn.</i> , <i>Chlamydomphila pn.</i> DNA
PNEUMOTRIS - Positive Control	25	CTR099	Plasmidic positive controls for qualitative assays
TOXOPLASMA GONDII oligomix Alert Kit	50	BAT01	Detection of <i>Toxoplasma gondii</i> DNA (B1 region) - <i>Research Use Only</i>
TOXOPLASMA GONDII - Positive Control	25	CTR01	Plasmidic positive controls for qualitative assays - <i>Research Use Only</i>
BETA - GLOBIN oligomix Alert Kit - PCR	50	BANG01	Detection of human beta globin gene - external quality control Single round PCR

*All the Alert PCR products are available in a monotest format Please order BANXXX-02 to select the 0,2 ml PCR tubes format or BANXXX-05 to select the 0,5 ml PCR tubes format

HUMAN GENETICS

Products
(Dot Blot Detection)*

Products	Tests	Ref.	Description
THROMBOPHYLIA Alert Kit (FV-FII-MTHFR)	12	DBS00	FV Leiden, FII G20210A, MTHFR C677T detection - Dot Blot
THROMBOPHYLIA - Positive Control	12	CTRDBS00	Plasmidic positive controls for qualitative assays

*All the Alert PCR products are available in a monotest format Please order DBSXXX-02 to select the 0,2 ml PCR tubes format or DBSXXX-05 to select the 0,5 ml PCR tubes format

ONCOLOGY

Products - Nested-PCR
(Electrophoresis Detection)*

Products	Tests	Ref.	Description
PHILADELPHIA oligomix Alert Kit	25	BANG07	Detection of t(9;22) (q34;q11) BCR-ABL translocation
PHILADELPHIA - Positive Control	25	CTRG07	Plasmidic positive controls for qualitative assays
t(15;17) oligomix Alert Kit	25	BANG12	Detection of t(15;17)(q22;q21) PML-RARA translocation
t(15;17) - Positive Control	25	CTRG12	Plasmidic positive controls for qualitative assays
BCL2 oligomix Alert Kit	25	BANG08	Detection of t(14;18)(q32;q21) BCL2-IgH translocation
BCL2 - Positive Control	25	CTRG08	Plasmidic positive controls for qualitative assays
MELANOMAS oligomix Alert Kit	25	BANG20	Detection of Tyrosinase cDNA
MELANOMAS - Positive Control	25	CTRG20	Plasmidic positive controls for qualitative assays
inv(16) oligomix Alert Kit	25	BANG13	Detection of the inv (16)(p13;q22), t(16;16)(p13;q22) CBFβ-MYH11 rearrangements
inv(16) - Positive Control	25	CTRG13	Plasmidic positive controls for qualitative assays
t(12;21) oligomix Alert Kit	25	BANG14	Detection of the t(12;21)(p13;q22) TEL-AML1 translocation
t(12;21) - Positive Control	25	CTRG14	Plasmidic positive controls for qualitative assays
t(8;21) oligomix Alert Kit	25	BANG15	Detection of the t(8;21)(q22;q22) AML1-ETO translocation
t(8;21) - Positive Control	25	CTRG15	Plasmidic positive controls for qualitative assays
t(4;11) oligomix Alert Kit	25	BANG16	Detection of the t(4;11)(q21;q23) MLL-AF4 translocation
t(4;11) - Positive Control	25	CTRG16	Plasmidic positive controls for qualitative assays

*All the Alert PCR products are available in a monotest format Please order BANGXX-02 to select the 0,2 ml PCR tubes format or BANGXX-05 to select the 0,5 ml PCR tubes format

Accessory Kits

ACCESSORY KITS

Nucleic acids extraction

	Tests	Ref.	Description
EXTRAcell	50	EXTD02	DNA extraction from cellular samples
EXTRAgen	50	EXTG01	DNA+RNA extraction from not cellular samples
EXTRAzol	50	EXTR01	RNA extraction from cellular and not cellular samples
EXTRAffin	50	EXTF01	DNA+RNA extraction from paraffin-embedded tissues
EliGene MTB Isolation Kit	50	90043-50	Mycobacterium DNA extraction kit
EXTRAblood	50	EXTB01	DNA extraction from cellular and not cellular samples

Internal control systems

	Tests	Ref.	Description
DECK	100	DK100	Internal control system for DNA extraction
CPE-DNA - Internal Control	50	CTREXTG	Internal Control: DNA extraction positive control
RECK	100	RK100	Internal control system for RNA extraction + extraction RNA positive control
CPE-RNA - Internal Control	100	CTRRNA	Internal Control: RNA extraction positive control

Electrophoresis

	Tests	Ref.	Description
ELECTROPHORESIS 2	64	EPH02	Ready To Use precasted gels, 8 wells each, buffers, molecular weight marker Hinf I
ELECTROPHORESIS 3	120	EPH03	Ready To Use precasted gels, 24 wells each, buffers, molecular weight marker Hinf I
ELECTROPHORESIS 4	64	EPH04	Ready To Use precasted gels, 8 wells each, buffers, molecular weight marker Hae III

Reverse transcription

	Tests	Ref.	Description
RT - kit plus 0,2 ml monotest format	50	BRK200-02	cDNA synthesis by random primers
RT - kit plus 0,5 ml monotest format		BRK200-05	

NEW

For research use only

ELITE - IQC Panel

	Tests	Ref.	Description
CMV ELITE - IQC	4 x 2	IQC015	Internal quality control for detection and quantification of CMV
EBV ELITE - IQC	4 x 2	IQC020	Internal quality control for detection and quantification of EBV
HSV1 ELITE - IQC	4 x 2	IQC031	Internal quality control for detection and quantification of HSV1
HSV2 ELITE - IQC	4 x 2	IQC032	Internal quality control for detection and quantification of HSV2
VZV ELITE - IQC	4 x 2	IQC035	Internal quality control for detection and quantification of VZV
Enterovirus ELITE - IQC	4 x 2	IQC076	Internal quality control for detection and quantification of Enterovirus

ELITE-IQC Run Controls available soon for all parameters
